

EASY, CONVENIENT SOLUTION FOR YOUR COMPRESSED AIR NEEDS

Compressed air is considered by many to be the fourth utility. Sullair Managed Air Power is a worry-free solution to help you treat compressed air like any other utility and focus on what you do best.

For one flat monthly rate, you receive a comprehensive solution to your compressed air needs:

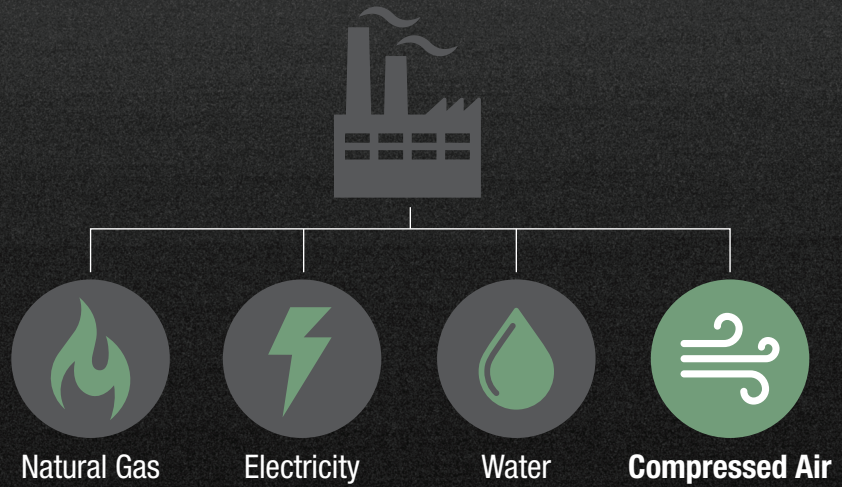

- An analysis of your compressed air needs—including future growth
- Installation of a complete compressed air solution tailored to your specific requirements for air flow, pressure and air quality
- The complete installation includes:
 - Compressors
 - Air treatment
 - Storage
 - Remote monitoring solutions available
- Maintenance, monitoring and management of your system for worry-free uptime

**LET EXPERTS WORRY ABOUT COMPRESSED AIR
SO YOU DON'T HAVE TO!**

SULLAIR MANAGED AIR POWER = PEACE OF MIND

Round-the-clock compressed air system management is only a compressed air and electricity connection away with Sullair Managed Air Power.

- No capital outlay required
- Maximized reliability and uptime
- Managed budget—one flat monthly rate with no unexpected expenses
- Worry-free operation
- Energy efficiency and cost savings with an optimized compressed air system
- No need to dedicate floorspace or staff to the compressed air system
- Reduced EHS concerns—including disposal of fluid and contaminated filter and separator elements

THE ADVANTAGE

<p>Comprehensive up-front audit and analysis</p>	<p>A thorough audit and analysis including current-stage and future goals helps determine the right solution for now and for the future.</p>
<p>Solutions customized for your operation</p>	<p>Sullair Managed Air power uses AirSuite™—an exclusive tool—to help determine and design the best compressed air system solution for your operation.</p>
<p>Comprehensive solution management</p>	<p>Everything is considered—from space required to solution redundancy; from air quality to air consumption; from maintenance to repair.</p>
<p>Around the clock management</p>	<p>We monitor compressed air operations 24/7/365 to help ensure maximum uptime. This helps detect and address potential concerns quickly before they impact business.</p>
<p>Complete budget control</p>	<p>The compressed air consumption costs are fixed from day one. And there are no capital outlays required – all costs, including maintenance and management are included.*</p> <p><i>*Compressed air usage above expected demand will result in increased fees as specified in your contract.</i></p>
